To Whom It May Concern

Central Asia Journal of Public Health

Dear Sir/Madam,

I would like to submit this manuscript entitled: "A New Paradigm of Primary Health Care: Personal, Community-based, Standardized, and Technology-driven".

I have over 25 years of experience in the fields of healthcare management, clinical and biomedical research and international development (http://en.wikipedia.org/wiki/Almaz_Sharman).

I am submitting this paper that calls for rethinking the principles of the Alma-Ata Declaration: reinventing primary health care on an entirely new platform with personalized approach, community-based, and technology-driven.

I sincerely hope that your Editorial Board will consider my paper for publication.

Kind regards,
